

LEAD by ELEVATE POE PART 1

Part 1

Student: Bongani Mlungisi Ndhhlala

Student Number: ST10517671

Web Development WEDE5020

21 August 2026

1. Part 1 Requirements and Submission Strategy

The WEDE5020W Part 1 work focuses on planning the website, researching the chosen organisation, preparing the proposals, planning the website structure and producing the basic HTML prototype. The website is intentionally simple at this stage. Advanced visual styling and functionality can be developed in Part 2.

2. Organisation Selected

Organisation: LEAD by ELEVATE

Category: Non-profit organisation

LEAD by ELEVATE is described in the supplied ICE Task 1 as a growth-minded community and professional development network. It supports personal and professional growth, leadership development, mentorship, coaching, networking and learning through community activities.

3. Proposal 1 LEAD by ELEVATE Website

The proposed website will give LEAD by ELEVATE a simple central place where visitors can learn about the organisation, its activities and how to make an enquiry.

4. Proposal 2 Vu Dance & Fitness Studio

Vu Dance & Fitness Studio is the second organisation option recorded in ICE Task 1. It provides dance instruction, fitness conditioning, movement classes, private coaching, choreography packages and community showcases.

5. Chosen Proposal – LEAD by ELEVATE

LEAD by ELEVATE is the selected organisation. It has a clear purpose, several activities that can be explained through different pages, and supplied photographs that provide genuine project evidence.

6. Research and Content Gathering

ICE Task 1 describes LEAD as a growth-minded community and professional development network. The supplied promotional material covers leadership development, mentorship and exposure, community and belonging, long-term growth, coaching, coffee sessions, industry insights and developmental events. The supplied photographs provide organisation-specific evidence.

3.1 Website Goals and Objectives

- Give LEAD one central online place for its information.
- Help visitors understand what LEAD is and who it serves.
- Explain the main activities.
- Show community activities and photographs.
- Give visitors a simple way to make an enquiry.
- Create a clear foundation for Part 2.

3.2 Proposed Website Features and Functionality

- Home, About, Services, Gallery, Enquiry and Contact Us pages.
- Simple navigation on every page.
- Basic HTML enquiry form.
- Real supplied LEAD photographs and promotional material.
- Descriptive alt text and labelled form controls.
- No database or server-side processing in Part 1.

3.3 Design and User Experience

- Plain and easy-to-read Part 1 layout.
- Clear headings and short paragraphs.
- Consistent navigation.
- Real LEAD images instead of unrelated stock images.
- Advanced colour, animation and responsive refinement reserved for Part 2.

7. Proposed Website Content

Page	Purpose	Main content
Home	Introduce LEAD	Overview, purpose, key activities and images
About	Explain LEAD	Overview, proposed mission/vision and expectations
Services	Show activities	Leadership, mentorship, coaching, coffee sessions, insights and events
Gallery	Show evidence	Supplied photographs and promotional graphics
Enquiry	Interaction	Name, email, enquiry type and

		message
Contact Us	Communication route	General location/contact information and enquiry route

8. Site Map

- Home (index.html)
- About (About.html)
- Services (Services.html)
- Gallery (Gallery.html)
- Enquiry (Enquiry.html)
- Contact Us (Contact Us.html)

All pages use the same main navigation.

9. Timeline and Milestones

The table uses the required project-control fields: Task, Owner, Start Date, End Date and Status.

Task	Owner	Start Date	End Date	Status
Review brief, ICE Task 1 and research	Bongani Mlungisi Ndhlala	17 Aug 2026	17 Aug 2026	Completed
Complete proposals and research notes	Bongani Mlungisi Ndhlala	18 Aug 2026	18 Aug 2026	Completed
Prepare site map and folder structure	Bongani Mlungisi Ndhlala	18 Aug 2026	18 Aug 2026	Completed
Create low-fidelity wireframes	Bongani Mlungisi Ndhlala	18 Aug 2026	19 Aug 2026	Completed
Build five required HTML pages	Bongani Mlungisi Ndhlala	19 Aug 2026	20 Aug 2026	Completed
Add Gallery page and supplied images	Bongani Mlungisi Ndhlala	19 Aug 2026	20 Aug 2026	Completed
Check links, images, spelling and structure	Bongani Mlungisi Ndhlala	20 Aug 2026	20 Aug 2026	Completed
Final packaging and submission	Bongani Mlungisi Ndhlala	21 Aug 2026	21 Aug 2026	Completed

10. Budget

The figures below are reasonable South African planning estimates. Part 1 itself can be completed with existing/free tools and supplied media, so the actual student cash cost for the prototype can be R0. The estimated project budget shows likely costs if the website is published.

Item	Purpose	Estimated Cost (ZAR)
Planning and research	Project planning and content preparation	R450
Website prototype development	HTML pages, structure and testing	R1,000
Domain name	Estimated annual registration	R250
Basic hosting	Estimated first-year hosting	R900
Image/content preparation	Basic image preparation	R250
Testing and deployment	Final checks and deployment	R300
Contingency	Small allowance for unexpected costs	R500
TOTAL		R3,650

Estimated actual cash cost for the Part 1 prototype using existing/free tools and supplied media: R0.

11. Low-Fidelity Wireframes

The wireframes are intentionally simple. They use boxes and labels to show page structure, similar to the examples supplied. Final colours and advanced styling are reserved for Part 2.

Home Page Wireframe

Introduce LEAD, its purpose, key activities and a clear enquiry route.

HEADER / LOGO	NAV: Home About Services Gallery Enquiry Contact

12. HTML Structure and Testing

- index.html – Home
- About.html – About
- Services.html – Services
- Gallery.html – supporting page
- Enquiry.html – enquiry form
- Contact Us.html – contact page
- css/style.css – simple readability styling
- images/ – supplied LEAD images
- js/ – reserved for later functionality

13. Basic Website Testing Checklist

Open index.html and confirm the Home page loads.

Check every navigation link.

Check all image paths and images.

Check enquiry fields have labels.

Check all required pages are present.

Check filenames and folders against the site map. Check spelling and headings.

Open the website in a browser from the Website folder.

14. Submission Package Contents

- Proposals/Proposal_1_LEAD_by_ELEVATE.docx
 - Proposals/Proposal_2_Vu_Dance_and_Fitness.docx
 - Proposals/Chosen_Proposal_LEAD_by_ELEVATE.docx
 - Research/Research_Notes.txt
 - Research/ICE_TASK_1.pdf
 - Research/LEAD evidence images
 - Website/index.html
 - Website/About.html
 - Website/Services.html
 - Website/Gallery.html
 - Website/Enquiry.html
 - Website/Contact Us.html
 - Website/css/style.css
 - Website/images/
 - Documentation/site_map.png
 - Documentation/folder_structure.png
- Documentation/LEAD_Part1_Wireframes.docx
